

# MORNING APPEAL

TUESDAY, NOVEMBER 20

Silver bullion took a jump in London last Friday, the price advancing about twelve cents per ounce. It was due to the operations of a gang of speculators, whose motive is not known. One of the reasons assigned is a desire to boom silver with the view of influencing the action of the Monetary Conference.

In the U. S. Court, yesterday, the case of the U. S. vs. Jewett Adams, R. P. Keating and R. McMillan, bondsmen of U. S. Marshal Kelly, deceased, who was short in his accounts with Uncle Sam, in the sum of \$2,200, was continued until 10 this morning, the evidence not all being in.

## MULDER LOCATED.

### An Order for His Arrest Telegraphed.

Ever since Professor Mulder left this city, Sheriff Botsford has been pretty close on his trail by means of the telegraph.

He drove from Virginia City to Wadsworth and took the East-bound train for Ogden, where he was joined by his wife. He then went to Omaha, from there to St. Louis, and thence to Galveston, Texas, where he is now located.

He was traced by means of a box of valuables addressed to E. Robertson. As he was known to have shipped the box the Sheriff kept track of it.

It was sent to St. Louis and he wrote from Galveston to have it forwarded to him. The agents in St. Louis were wired to keep watch of it and they wired back that it had been forwarded to Galveston, Texas. Mr. Botsford wired Chief Police there to be on the look out and yesterday received a dispatch that the man was there with his wife. Botsford wired orders to arrest him on the charge of obtaining money and goods under false pretenses.

The District Attorney was away and there was now some doubt as to how to proceed. Last evening Chas. Hofer went to Virginia to consult with Judge Rising about having a Grand Jury find an indictment at once and have him brought back. It was talked on the street yesterday that the County Commissioners would not allow the bill for expenses in bringing him back. The report caused a great deal of discussion.

The cost will not be over \$300 and every business man and taxpayer in the city who was talked with was strong in the opinion that he should be brought back and made an example of.

He has swindled business men in this city out of about \$2000 and the feeling is general that he should be required to spend a few years in the penitentiary.

He is also wanted by a Railway company in New York which he succeeded in swindling out of several thousand dollars for the loss of a trunk which afterwards proved to have been filled with old iron.

If Ormsby county makes an example of a few of these crooks they will give us a wide berth in the future.

## Why Not?

There does not seem to be any lack of candidates to fill the positions in the gift of the Legislature. The members of the Silver party are just as greedy for the crumbs that fall from the official table as those of either of the old parties. Some will be left and then what a howl will go up from the disappointed patriots.—Elko Independent.

This would be a good time to enforce the Jacksonian theory. "To the victors belong the spoils" may be put in force when the Legislature meets and a selection of its officers is being made. We are of the same opinion as the Independent, that if some of the Silver men are left a howl will ensue, especially if preference be given the goldbugs.—Sentinel.

## Blown to Pieces.

William Hughes and Ed. Nottle, two Comstock miners engaged in putting in blasts in the Kenosha tunnel were blown to pieces yesterday, but no one knows just how the accident occurred.

Their bodies are hardly recognizable and parts of their limbs are gone and both of Hughes legs were blown off, one of his feet being found twenty feet from where the explosion took place.

Both men leave wives and children. Hughes was a member of the last legislature.

## The Storm.

A rain storm began on Sunday and turned to snow in the night. It lasted all day yesterday, and was raining as the APPEAL went to press. Nearly two inches of rain fell.

The severity of the storm knocked the telegraph wires galley-west. No telegraphic news arrived and at the hour of going to press no stock reports had been received from San Francisco. In fact there was no wire working between here and Virginia.

## Stricken with Apoplexy.

Frank Meder was suddenly stricken with apoplexy yesterday afternoon at about 4:45 o'clock, in the Capitol Lodging House. Dr. Guinan was immediately summoned, and says he can live but a few days.

## FATE OF MINE DISCOVERERS.

### Apparent Fulfillment of a Superstition Prevalent in the West.

There is a superstition prevalent in the gold fields of the west that the discoverer of a rich find is sure to meet a violent end, and some thirty-five or forty instances in point are readily quoted. Out of the forty or less twelve were shot or stabbed to death in saloons and other broils, five committed suicide, three were engulfed by landslides, five turned murderers and robbers and were caught and executed in various ways, one fell into a boiling spring and had the flesh literally stewed from his bones, while others have disappeared, and no one knows what ever became of them. George H. Fryer, once the millionaire proprietor of the "Fryer Hill Mine," committed suicide in Denver, after spending the last nickel between himself and starvation. The discoverer of the great Standard mine (California) was caught and swallowed up in an avalanche. Col. Story was killed by Indians. William Fairweather of the famous "Alder Gulch Mine" died with the "frenzied horrors" after a continuous two years debauch. "Ferryell of Meadow Lake" died with a terrible disease in a San Francisco hospital. The owner of the great mine, the "Homestake," became a highwayman, and was shot while robbing a stage coach. John Homer tried the same route that Fryer went. "Doughnut Bill," "Nine-mile Clarke," "Old Eureka" and many others were killed in saloons. Plummer, known as "Montana," the discoverer of the richest mine in the world and at one time "sheriff of the largest county in the United States," was finally hanged on his own scaffold.

## THE NEW ROAD.

### Work to Begin in January.

The latest statement regarding the San Francisco and Great Salt Lake road comes from a statement made by one of the surveyors in San Francisco. He says that concern intends to commence active operations about the first of the year. A branch line between Fruitvale and Stockton has been surveyed, and the new line will be shorter by twenty miles than by the present line. On the first of the month the field surveyors completed their work to Reno, Nevada. The route is outlined to commence at Bay Point. It will then run to Suisun Bay, which it will cross at Benecia. The survey then skirts the Sacramento river to the Capital city. Marysville and Oroville will be the next points touched at. The route then runs up the canyon of the north fork of the Feather river. At the end of this it will run over the Sierras and thence to Reno, Nevada. The Stockton branch has been surveyed over the Morago Rancho and will enter through a tunnel two miles above Mill's Seminary. A surveying party has been ordered to report for duty on the 2nd of January.
